LETTER OF APPRECIATION

Dear Anoushka,

It is an academic eventuality where the pedagogy of language, devised and coordinated with the help of AI, will guide us further on how language and communication can be improved.

These softwares (SpeechSmith and NextGen Debaters) evolution helps learners greatly, and one can engage with them on their own time and space availability.

The digital approach to learn a language also saves beginners from the embarrassment that they might go through in case of offline classroom learning.

This software not only caters to the learner's need of fluency and diction, but it also helps in getting the learner on a language learning journey. This software exemplifies synthetic learning and is thus of valuable service.

I wish all the best to this endeavour and approach, which leads to the growth and maturity of language and language skills for all.

Do great!

Navneet Sharma

Letter of Appreciation

To
Ms. Anoushka Tandon
SpeechSmith + NextGen Debaters India

Dear Ms. Tandon,

On behalf of **Bal Bharati School, Ludhiana**, it is my privilege to extend our heartfelt appreciation for the positive impact SpeechSmith and NextGen Debaters India have created in our institution. With over **3000 students in K-12 category**, our school has always prioritized academic excellence alongside communication skills.

Your program has significantly enhanced our students' **English fluency, confidence in public speaking, and debating ability**. The AI-powered feedback of SpeechSmith combined with the free international debate training opportunities of NextGen Debaters has provided our learners with exposure to global standards of communication.

In today's interconnected world, fluency in English is not only a medium of expression but also a gateway to future opportunities. We deeply value the contribution your initiative has made in preparing our students to thrive academically and socially.

Best wishes,

Ashish Sawhney

Speech Smith

Dear

Ms. Tandon,

On behalf of Vidyanidhi High School, Commerce College and Vocational Centre, community-based institutions in Vile Parle West, Mumbai, committed to providing quality education to children and young adults from underserved backgrounds, we would like to extend our heartfelt thanks for your support through SpeechSmith.

The use of SpeechSmith has significantly enhanced the English communication skills of our over 380 students and over 340 college students and vocational skill trainees. It has not only improved their spoken English but has also contributed to building their confidence, boosting employability readiness, and helping them express themselves more effectively in academic and social settings.

We truly appreciate the thoughtful innovation behind Speechsmith and are excited to continue witnessing the positive impact it brings to our students' learning journeys.

SpeechSmith + NextGen Debaters India

Dear Ms. Tandon,

It gives us immense pleasure to convey our gratitude for the initiatives of **SpeechSmith and NextGen Debaters India**. At **BCM School, Basant Avenue, Dugri Road**, with more than **3700 students across Grades Nursery - XII**, we believe communication is the foundation of academic and professional success.

The exposure to **AI-powered speaking practice and debate training opportunities** has allowed our students to refine their English fluency, reduce hesitation, and participate in competitive forums with confidence. The fact that these programs are **accessible and free of cost** ensures that every learner, regardless of background, benefits equally.

We thank you for equipping our students with tools that will serve them for a lifetime.

Best wishes,

Debating404 - Global Debating Community
Website: www.debating404.org
Outreach: info@debating404.org

Letter of Appreciation

To,
Ms. Anoushka Tandon
Founder, SpeechSmith

27th May 2025

Dear Ms. Tandon,

On behalf of Debating404, a global debating community founded and run by World Schools Debating Championship (WSDC) national and international winners, we are proud to extend our appreciation for the remarkable contributions of your platform, SpeechSmith.

Debating404 has been built as a social initiative to provide access to world-class debating and communication training for students across 50 countries, impacting more than 20,000 young people worldwide. Through our programs, we have consistently sought to break barriers of geography, background, and privilege, ensuring that students globally can find their voice, learn the art of persuasion, and grow as confident communicators.

The integration of SpeechSmith into our ecosystem has been a transformative step forward. Students have found the platform not only intuitive and engaging but also empowering. The instant feedback on pronunciation, fluency, and delivery has allowed them to refine their speeches and presentations independently, building both competence and confidence. In particular, we have received overwhelmingly positive feedback from learners across diverse contexts, many of whom noted that SpeechSmith gave them the confidence to speak in front of an audience for the very first time.

Beyond technical improvements, SpeechSmith has contributed to the broader vision of Debating404, using communication as a tool for empowerment, leadership, and global citizenship. Its adaptability has ensured relevance across cultures and contexts, making it a tool with true global impact.

As an organisation that thrives on excellence in communication and believes in creating opportunities for all, we deeply value the role SpeechSmith has played in helping students overcome barriers, gain fluency, and achieve success both within and beyond debate.

We commend you and your team for this innovation and look forward to continued collaboration in shaping the next generation of global communicators.

With gratitude,

Daiwik Dhar

Letter of Recognition

To,
Ms. Anoushka Tandon
Founder, SpeechSmith

5th April, 2025

Dear Ms. Tandon,

On behalf of The NOSFAM Foundation, I wish to express our deep appreciation for the transformative role of SpeechSmith in building communication skills, confidence, and employability among students from disadvantaged communities.

Our organization works extensively with young people from underserved backgrounds, equipping them with academic support and critical life skills for a brighter future. During the early engagement phase of SpeechSmith, Anoushka actively collaborated with our educators and program coordinators to understand the linguistic and psychological barriers faced by first-generation English learners. She actively engaged in training sessions with our teachers and even helped co-develop our English communication curriculum, integrating SpeechSmith's AI-driven modules with practical classroom exercises. This collaboration ensured the platform complemented our existing pedagogy and remained adaptable to diverse learning needs.

In our rollout, SpeechSmith was introduced to 1650 learners across multiple centres in Mumbai, Manipal, and Bangalore. The platform allowed students to practice independently, receive automated feedback, and gradually overcome hesitation in spoken English.

What set SpeechSmith apart was its ability to go beyond error correction, helping learners develop soft skills such as articulation, modulation, and professional expression, which are essential in higher education and the workplace.

Key outcomes include:

- Measurable improvement in spoken English fluency and confidence.
- Successful integration of SpeechSmith into weekly communication and employability modules.
- Enhanced educator engagement through customised curriculum design, learner progress analytics, and pre- and post-assessment surveys to measure communication improvement.

We deeply value your partnership and your vision of using technology to remove barriers for underserved learners. Together, we can empower more youth to achieve academic success and meaningful careers.

With gratitude,

Dear Ms. Tandon,

On behalf of our NGO, Ayushman Foundation, we would like to thank you for your support in helping us enhance the communication skills of our students through your platform, SpeechSmith

The use of SpeechSmith will enable our students—especially those from underprivileged backgrounds—to strengthen their English-speaking abilities and build greater confidence in their communication skills.

This initiative will positively impact our adopted village and Zilla Parishad (ZP) schools across Maharashtra and Uttar Pradesh, reaching over 1,500 children with the support of more than 300 volunteer warriors.

We truly appreciate the effort behind the development of SpeechSmith and look forward to seeing its contribution to our students' learning journey.

Warm regards,

Dear Ms. Tandon,

At Gurusharan Convent School, Delhi, with over 700 students in Grades Nursery to V, we take pride in celebrating the progress and confidence our young learners have gained through SpeechSmith and NextGen Debaters India.

Your initiatives have nurtured not only **fluency and pronunciation in English**, but also a love for **debating as a means of self-expression and leadership**. It is heartening to see children who once hesitated now speaking with ease and assurance.

As educators, we believe language is more than words — it is a tool for **critical thinking, creativity, and global citizenship**. Through your **free training, debate opportunities, and competitions**, our students are already discovering the joy of finding their voice.

We are grateful for this collaboration and look forward to shaping more confident, thoughtful, and articulate leaders of tomorrow.

Dear Ms. Tandon,

On behalf of **Gurusharan Convent School, Delhi**, I am delighted to extend our heartfelt appreciation for the positive and lasting impact that **Speech Smith** and **NextGen Debaters India** have created in our institution. With **over 1000 students across Grades VI to XII**, we have always believed that true education goes beyond textbooks, it lies equally in building confidence, expression, and leadership.

Your programs have brought remarkable growth in our learners by:

- Strengthening their **English fluency and communication skills**.
- Instilling **confidence to speak and debate fearlessly**.
- Offering **AI-powered feedback and international exposure**, giving them a platform to match global standards.

It has been wonderful to witness even our quieter students find their voice, step onto the stage, and speak with conviction. In today's interconnected world, such skills empower them not just for exams, but for life.

We are grateful for this collaboration and value your commitment to nurturing every student equally, making opportunities accessible to all. Together, we are preparing a generation that will think critically, communicate with clarity, and lead with confidence.

Dear Ms. Tandon and the SpeechSmith Team,

On behalf of the Indian Aerotech Training Academy, we extend our heartfelt appreciation for your outstanding contribution in supporting the communication development of young job aspirants through your transformative platform, SpeechSmith, which will be used extensively to enhance English-speaking proficiency, boost confidence, and prepare our students for interviews and workplace communication. The impact will be particularly empowering for our trainees from underprivileged backgrounds who will now be able to express themselves more fluently and professionally.

We deeply value the vision, dedication, and empathy with which you've designed SpeechSmith.

We look forward to continued collaboration as we work together to bridge opportunity gaps through communication excellence.

Warm regards,
Director
Indian Aerotech Academy

Letter of Appreciation

August 28, 2025

To,
Ms. Anoushka Tandon
Founder, SpeechSmith

Dear Ms. Tandon,

This letter serves to formally recognize the success and impact of your AI-based platform, SpeechSmith, in supporting our students' spoken English development at our organisation.

Our organisation has operated across 4 regions over a decade, delivering academic and soft-skills training to over 300 students annually from disadvantaged backgrounds. As part of our early 2025 curriculum upgrade, we introduced SpeechSmith in two centers, impacting 120+ learners over a structured program.

With minimal setup and onboarding, students could record themselves, receive auto-generated transcripts with pronunciation feedback, and engage in repeated practice. The AI feedback not only corrected errors but helped students understand rhythm, expression, and modulation.

As a result:

- 30% improvement in communication.
- Trainers integrated the tool into weekly spoken English modules

Your leadership has been instrumental not just as a technologist, but as someone who understands the emotional barriers students face in finding their voice.

We thank you for your contribution and hope to continue building scalable impact together.

Best regards,

Nidhi Chaturvedi

Dear Ms. Tandon and Team,

On behalf of Raak Sapphire Pvt. Ltd., we extend our heartfelt thanks for your generous support in empowering school students from underserved communities through your transformative platform, SpeechSmith.

Raak Sapphire Pvt. Ltd. is a pioneering Ed-Tech company specializing in personalized K-12 STEAM programs. Our hands-on methodology transforms learning into an enjoyable, meaningful, and enduring experience, aimed at endowing students with essential 21st-century skills.

For over 5 years, Raak Sapphire has reached over 8,000 children and 60 schools from low-income backgrounds. Communication development is a core part of our mission, and SpeechSmith has significantly enhanced this effort.

Your platform has helped our partner school's 300 students (6th-10th grade) build English fluency and boost self-confidence. Post-implementation, 60% students now speak more clearly, present themselves professionally, and perform better in the classes.

We deeply appreciate your vision and commitment to bridging opportunity gaps through communication excellence. We look forward to a continued partnership.

Dear Ms. Tandon and the SpeechSmith Team,

On behalf of Sri Ram Skills Centre, we thank you for your support in helping our trainees improve their communication skills through your platform, SpeechSmith.

We will be using SpeechSmith to train 250 trainees from the paramedical field. The platform will help us in building their English-speaking abilities, improving confidence, and preparing them for job interviews and workplace interactions. This is especially meaningful for trainees from disadvantaged backgrounds, who will now have a better chance to present themselves professionally.

We appreciate the thoughtful effort that has gone into developing SpeechSmith and look forward to be granted free access to the same, as discussed.

Ram Lal Anand College,
University of Delhi

10th August, 2025

Letter of Recommendation

I am delighted to recommend Anoushka Tandon, Founder of SpeechSmith, an innovative AI-driven English communication and fluency platform. I serve as the Head of the Department of Computer Science at Ram Lal Anand College, University of Delhi, and have been an educator for over 25 years, deeply engaged in bridging technology with learning outcomes.

Anoushka first approached me during the development phase of SpeechSmith, seeking mentorship and insights from my teaching experience. Over the years, I have observed that while many students from non-English medium backgrounds possess strong technical and academic aptitude, their limited English fluency and communication confidence often restrict their academic growth and employability.

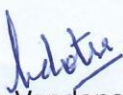

Anoushka not only recognized this challenge but also developed a scalable, empathetic, and technically sound solution. I mentored her for approximately 10 months, during which she displayed remarkable clarity of vision, adaptability, and commitment. She combined linguistic insights with computational models to create an AI tool that offers real-time, personalized feedback on pronunciation, pacing, and fluency, thereby making English learning accessible and engaging.

We ran pilot sessions of SpeechSmith with our students, and the results were very encouraging. Faculty members reported increased confidence among students, while learners appreciated how intuitive and non-judgmental the tool felt. Anoushka regularly interacted with our teaching team, both online and offline, integrating feedback swiftly and thoughtfully.

Her ability to translate a social problem into a technological innovation demonstrates exceptional maturity and foresight. SpeechSmith holds immense potential to transform English learning across socio-economic barriers, and Anoushka's perseverance, integrity, and technical expertise make her an extraordinary young leader.

It has been a privilege to mentor her, and I am confident that her work will continue to make a lasting educational impact.

Sincerely,

Dr. Vandana Gandotra
Associate Professor
Department of Computer Science
